ACCIDENT TO A FREIGHT TRAIN .-A freight train composed principally of oil cars, while coming from Tidioute to Oil City Saturday afternoon, met with an accident near the mouth of Stewart's Run, by which eight cars loaded with oil, owned principally by parties in Oil City, were thrown from the track and destroyed. The accident is supposed to have been caused by an axle breaking, as at the first intimation the engineer had of the same, was upon looking back and seeing the oil tanks and cars going into the river. The cars that were thrown from the track were near the centre of the train the three next to the locomotive and the two rear cars remaining upon the track. Luckily the brakemen were on another part of the train, otherwise loss of life must have resulted. Passenger trains during the afternoon were compelled to make a transfer at the point of accident, and the wreck was not entirely cleared up until Sunday morning.-Herald.

On Thursday of last week a wild cat entered the house of Mr. Elliott Walters, who resides at Wilson's Mill, on Toby Creek, in Knox township, about seven miles north of this place, and took a young child from the cradle, and was about to commence devouring it when it was frightened away. The parents had gone out to gather in potatoes from a lot and left the babe wrapped up, sleeping in its cradle. A little girl was sent in after they had been abesnt a short time, to see about the child, and when she opened the door, was horrified to see a large wild cat, with the infant behind the stove. The little thing was crying pitiously, and in a short time would doubtless have been killed and devoured by the savage beast. On the alarm being given, the wild cat escaped through the window, and has since been seen in that neighborhood .- [Clarion Dem-

Ar Corry, a few nights since, a merchant on Senaca street; gave an impromptu exhibition of the uses of gas. Of course everybody was proud of having the illuminator started, and of course some of the gas pipes leaked. The merchant's store smelled, especially strong, and it appeared to be densest in the box shaped show window. Some one advised him to light a match, so as to ascertain where the leak was, and, holding his nose while he performed the operation, he went to the inside of the window, struck s match, and landed on his back on the avement, with broken glass all around him. He now considers the expediency of hunting for gas leaks with lighted matches as more than question-

A HORRIBLE accident occurred at a flouring mill at Emporium, the other was struck on the Reno Company's day. The miller noticing something wrong with the machinery, immediately shut off the water and stopped the mill. On going to the basement be found the crushed remains of a child. It seems that a little son of Amos Klock, aged rbout 8 years, by some means got into the basement, and probably while playing near the machinery, got caught between the spur wheel and pinion, the cogs drawing him in and almost grinding him to atoms.

PENITENTRY BIRDS AT LARGE. The Pittsburgh papers state that James Dnon and Thomas Irvin, lately committed to the Allegheny Penitentiary from Venango county, effected their escape on Tuesday last. The Gazette says:

It seems the men were engaged in the yard about the gas house. They were only occupied three or four hours a day, and had been assigned to that duly and allowed to be outside because of exemplary conduct. They had been working up to quarter past six last Tuesday evening. About seven o'clock the guard about the peniteutiary was changed. While this was being done the two convicts made their escape. They had constructed a ladder of twine and sticks, which they had evidently been at work upon for some time. Then managed somehow to obtain hold for it on the eastern wall, fronting on Sherman avenue (late Webster street). It was then but a small job to scale the walls and away. It was not long before their absence was noticed, but they had made good their escape, and no trace
